

1. Write the addition statement for each representation below. Then, solve.

2. Illustrate the addition statements below, then, solve.

a) $(+10) + (-7) =$

b) $(-8) + (-4) =$

c) $(+7) + (+8) =$

3. Write the addition statement for each representation below, then, solve.

4. Label the number line to show each addition statement. Then, solve each statement.

a) $(+4) + (-2) =$

b) $(-3) + (-5) =$

c) $(-8) + (+1) =$
